RCM Connect

Integrate Patient Data, Optimize Revenue

RCM Connect is a proprietary solution that consolidates a patient's clinical records from across the healthcare continuum and delivers a complete, organized summary directly into a provider's workflow.

This solution improves patient care, increases operational efficiency, and generates new compliant revenue - all with seamless implementation and no downtime or disruption to existing processes.

What's the secret behind this new revenue?
RCM Connect leverages inter-professional collaboration, advancements in data aggregation, clinical summarization and revenue cycle management to allow providers to deliver more informed care while earning additional reimbursement for the clinical work involved.

RCM Connect Benefits Patients & Providers

A clear, consolidated snapshot of each patient's medical history, including medications, diagnoses, imaging, labs, and specialist notes aligned with a specialized, standalone billing solution helps providers to:

- ☑ Generate new, compliant revenue for the practice.
- ☑ Make faster, more informed clinical decisions to improve patient care and safety.
- ☑ Strengthen chronic disease management and reduce redundant tests and unnecessary referrals.
- ☑ Improve documentation quality and visit efficiency for patients.
- ☑ Create a competitive advantage for the practice by enhancing the patient experience.
- ☑ Optimize revenue and minimize business risk with no upfront fees (RCM Connect is only 6% of collections, billed after your insurance payments have been received).

3 Simple Steps to Start

1. Complete this online form to reserve your place in the onboarding queue.
2. Our team begins the eligibility review and coordinates next steps.
3. You're introduced to our integration partners to complete implementation.
